ABOUT US

Yi- Jeong Industrial is a leading Driveline manufacturer in Taiwan. With more than 40 years' experience of designing and manufacturing, we have expanded our market all over the world. We specialize in small to medium-sized propeller shafts for a deep diversity of vehicles, with a wide range of products from complete drive shafts to individual components.

Driveline Solutions for OEM & AM Applications.

AFTERMARKET

Our products cover a diverse line up of recognized driveline series from European & Japanese to traditional American types, all variations are catered for.

OEM

Yi-Jeong has been a supplier to several renowned automobile companies worldwide, particularly those specializing in special vehicles. Our product range includes components for ATVs, snowmobiles, agricultural machinery (such as tractors and mowers), and marine manufacturers. We provide custom components designed to meet and exceed the stringent standards of each individual OEM.
