How to Use This Catalog

This catalog lists 686 replacement driveshafts (propeller shafts) manufactured by YI-JEONG Industrial (IJE) in Taichung, Taiwan, for North American passenger cars, SUVs and pickups. Parts are grouped by vehicle make. A part shared by several makes (for example Chevrolet, GMC and Cadillac trucks) is listed once, under the make with the most applications, and the Model & Year column shows every vehicle it fits; the Contents list shows where to look. Every part is listed with its Dorman interchange number and the OE numbers it replaces.

Already have a number? Use the **Cross-Reference Index** at the back: Dorman and OE numbers are sorted in order, each pointing to the IJE part number and catalog page. You can also search all numbers online at www.autopart-supplier.com/replacement-driveshaft.

IJ IJE prefix	2 Type code	936025 Part number
-------------------------	-----------------------	------------------------------

1 1-piece steel	2 2-piece steel	3 3-piece steel	6 Aluminum
------------------------	------------------------	------------------------	-------------------

Length is the overall length in millimeters with inch conversion. Please confirm fitment with the OE number or a sample before ordering.

Contents by Make
